

MIXED MEDIA FENCE & RAILING

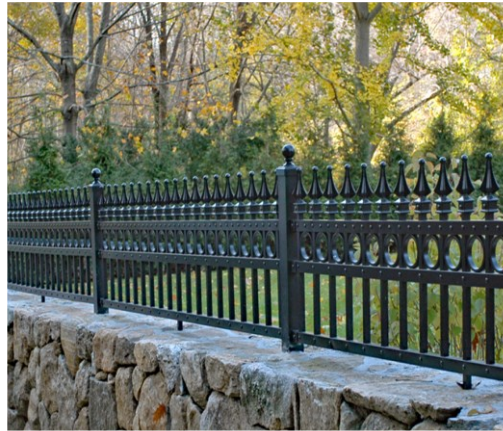

Mixed media fence and railing allows for a selection of materials to combine in unique configurations. The media used in fence and railing include; stone, metals, wood, vinyl and composites, each of which can be paired together in two, three or even four combinations

Pictured left is a wood framed, black metal "hog fence" and below are more stunning designs for homes.

FENCE

STONEWORK & ALUMINUM
with arched top panels

STONEWALL & IRON TOPPER
with imperial finials

DRIVEWAY WALL & VINLY TOPPER
